Re: Court Rule No. 2003-47

Honorable Supreme Court:

It is with great concern for asbestos cases that prompted this letter to you. It is with great respect for your moral and upright obligations to citizens, that "we" who are victims of asbestos disease, directly or indirectly, appeal to you for support and help.

The Michigan Constitution as well as the United States Constitution, makes it clear that judges are not to make the law. Judges are to **Interpret the law**. Why then is the Michigan Supreme Court considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial? Please uphold that which is right for us.

Thank you.
